

L.L.E. ALIVE!

Lake Lucerne Estates

Do you LIVE here or just reside here?

Envisioning Our Future

What are we doing?

- ENGAGING the community in dialogue about the future.
- Creating a VISION based on what people are saying.
- ACTIVATING lots of people from our community to take action to implement our community vision.

What do we believe?

- Everyone deserves a say.
- Planning the future should be guided by what's most important to the community.
- Our community will be more successful if people from our neighborhood have a chance to talk together about the future and discover our shared interests.

Community Conversations

We live in Lake Lucerne Estates, a subdivision that hugs Lake Lucerne, a 40 acre living Lake Ecosystem. There are 184 households on 8 streets in our neighborhood. In order to include every household, we have scheduled regular **community conversations** organized by street within Lake Lucerne Estates.

See sidebar for your date

Everyone will have a chance to talk about what it's like to live here and what you would like our community to look like and live like in the future.

Each **community conversation** will be a small group of neighbors and a leader sharing experiences and ideas. All ideas will be gathered and used to create our vision for the future of our neighborhood.

Community Conversations

Sept. 05 Lake Lucerne Way

Next: Matterhorn
Lake Lucerne Drive
Lake Lucerne Drive
Alpine
Alpine
Geneva and St. Moritz
St. Bernard + catch-ups

All Community Conversations will occur at **7pm at the LLECC Clubhouse.**

Light refreshments will be served.

Why Does It Matter?

“It’s changed.”

“Lake Lucerne Estates used to be a fun place to live. There were activities for the kids and we used to swim in the lake.” This is one comment from a neighbor.

A lot has changed with the economy and the growth of business and traffic on Highway 78. We’ve seen some homes go into foreclosure and others lose value. Some neighbors say they feel disconnected from the LLECC because they don’t live on the lake front. Others bring their boats down and fish regularly.

We’ve also seen new homes being built and we know that many people choose to stay here because they enjoy the lake neighborhood.

“What can I do?”

Be part of the conversation so that changes that do happen reflect what matters to you and your neighbors. Come to one of the **Community Conversations** and share your experience and ideas about what is special and should be saved and what needs to change to make our community a place where we live and not just reside.

“Is this just about the lake?”

No. Lake Lucerne Estates is the whole community of homes and people who live here. This is about discovering where we have

interests in common and way to work together to improve the entire community.

We can’t build a living community without you and your neighbors.

Come and be part of one of the Community Conversations and invite your neighbors to join you.
